MONTPELIER

Richard H. Ballard Gets Commission as Second Lieutenant in Regular Army.

Richard H. Ballard, son of Mr. and Mrs. S. S. Ballard of Montpelier, who has been spending the past month at Enosburg Falls, received yesterday his commission as second lieutenant in the regular army, dated Aug. 8. Mr. Ballard was an honor graduate from the University of Vermont and volunteered last April through the war department direct. Lieut. Ballard was born in Barre in 1891 and lived there several years, although most of his life was passed in Montpelier. Mr. and Mrs. Ballard returned last evening from Enosburg Falls, where they spent several days.

Jesse C. Farrar has sold to John Bent a farm in Cabot, the deal being made by the W. H. Farrar agency of Montpelier. The consideration was not made public.

In probate court to-day, John T. Averill of Barre settled his account as administrator of the estate of Donald W. Smith, late of Northfield. James W. Brock was appointed administrator and Albert W. Ferrin and Levi H. Bixby appraisers and commissioners of the estate of Oscar Merrill Fisher, late of Montpelier.

The district board of appeals resumed its sessions this morning, and it was stated at the office this forenoon that action on appeals might be expected this afternoon or evening. The board certifies the names of the men not exempted or discharged to the adjutant-general.

Robert W. Simonds, commissioner of industries, left last evening for Boston, where he will attend for several days the conference of the industrial commissioners and members of industrial accident boards in the United States.

A Hudson touring car of 1917 vintage, bearing a Quebec license plate, No. 48882, was driven to the Capital garage this morning for repairs. The machine evidently had hit a tree, for the lights and mud-guard and hood on one side were badly smashed, and one wheel was slightly sprung and pieces of bark were sticking to the wheel and fender. The garage people were unable to say how or where the accident occurred, but no one was injured.

Louis W. Knight, who has been employed for the past eight years in Montpelier as a registered pharmacist, has purchased a drug store in Springfield, Mass., of A. W. Taylor, and will take possession about the first of September. The drug store is located at the corner of Main and Portland streets in the Massachusetts city. Mr. Knight has

made many friends in the city during his eight years' residence, having been employed for seven years by Louis C. Rivers.

A hearing was held yesterday before Commissioner of Industries Simonds in the case of Giuseppe Bianchi vs. G. R. Bianchi Granite company of Montpelier, but no decision was given. The employee was injured last November, one eye being injured so that the sight is impaired. Mr. Bianchi has been cross-eyed since childhood, and doctors disagree as to whether or not he has ever had the sight of the eye which was injured last fall. Upon this question the hearing was held.

If conditions are propitious for a mid-week start, Contractor J. C. DeBrune and a gang of men will begin to-morrow the preliminary work on the South Main street paving project. The scarcity of labor is one of the pressing problems facing the contractor, who initiates work on the permanent street project after completing a cement reservoir for Judge H. W. Scott off Batchelder street.

A start on the excavation will be made at the terminus of the present paving and some time will necessarily elapse before the Barre Paving & Contracting Co., which was awarded the contract for laying the paving blocks, begins to fulfill its part of the agreement.

CONTROL OF COAL SITUATION.

Robert S. Lovett Is Appointed Director of Priority of Transportation.

Washington, Aug. 21.—Government control of the coal industry moved a step nearer yesterday when President Wilson formally named Robert S. Lovett, of the war industries board, director of priority of transportation and approved an order issued by Judge Lovett directing that rail and steamship lines give bituminous coal shipments to the northwest preference over all other freight movements.

There was no intimation last night as to whom the president would name. It was said he probably would not select a member of the trade commission or give full powers to Judge Lovett, but would look elsewhere for a man.

Mr. and Mrs. P. A. Noonan have returned from Groton pond, where they have been camping during the past week. Mrs. Noonan resumed her duties in the Homer Fitts store yesterday after a vacation of two weeks.

The condition of Alex Letourneau of Graniteville, who was removed to the City hospital Friday after sustaining serious injuries at the Boutwell, Milne & Varnum quarries, was reported to-day to be somewhat improved. Despite the fact that a skull fracture and a broken arm will delay his release from the hospital, his chances for recovery are considered bright.

R. O. Sears of Charlestown, W. Va., who has been attending the national retail monument dealers' convention in Philadelphia, arrived in the city to-day for a stay of several days in the Barre granite belt. Mr. Sears is widely known in this locality, having been employed for several years as a traveling representative of Elwell & Co., which maintained a branch office in Barre. Within a few years he embarked in the retail business in West Virginia and is at the head of a thriving concern, which handles many memorials of Barre granite.

The D. A. Perry Real Estate agency has sold for F. J. Seymour and wife of Brookfield their 140-acre farm situated in Brookfield Center, to R. S. Wilcox of Coventry, who purchases the farm for a home. Mr. Wilcox, who is the road commissioner for the town of Coventry, takes in the deal the cows, crops and farming implements, there being about \$7,000 involved in the transaction. Mr. Wilcox will take possession of his newly acquired property about Sept. 10.

"Rooms needed" is the high sign which the committee in charge of arrangements for the cemetery superintendents' convention continues to fly and unless there is a very general response on the part of householders by the end of the week some intensive campaigning will have to be done before accommodations for all of the visitors are provided. Thus far the canvass has been fairly successful, but the number of people who will volunteer to provide rooms at \$1 per day has not approximated the desired total. Persons who have rooms available are asked to communicate at once with members of the committee.

The street department busied itself to-day with the task of repairing some of the damage done by the storms of late yesterday afternoon and last evening. To reopen traffic along Maple avenue it was necessary to deploy a detail of axemen to the spot where a silver maple was blown across the highway. By mid-forenoon the tree had been reduced to firewood dimensions and the laborers were at work on hill streets, where tons of gravel were washed down to the flats. The new cement gutter along the south side of lower Washington street demonstrated its efficacy last night and little trouble resulted from the rush of water down the incline.

The big block of granite which is to form a base for the George B. Milne mausoleum at Elmwood got out of "clear" on Washington street yesterday afternoon, in consequence of which traffic on the trolley line was tied up east of Liberty street last night and again this forenoon. With the stone in tow, laborers working under the direction of W. F. Howland, who started from the Barre & Chelsea freight yard a week ago yesterday, are slowly toiling toward their destination, and by to-night it is expected that the corner leading to the cemetery will have been negotiated. Street car service east of the turn will not be resumed until the stone leaves the highway, as the street is too narrow for the block to remain in "clear."

\$200,500 FOR RED CROSS.

About \$500 More than State's Quota in Vermont.

Burlington, Aug. 21.—About 49,000 members and a war fund of about \$200,500 which is \$500 more than the state's quota is Vermont's contribution to the work of the American Red Cross. The final figures are now being tabulated, although members and money continue to be reported.

The standing of the five best donors to the fund among the cities and villages of the state is:

Proctor, \$28,320.06; Bennington, \$16,885.32; Rutland, \$16,400.24; Brattleboro, \$10,000; Woodstock, \$8,665.37. Practically every branch contributed to the fund which on a basis of a population of 300,000 would give Vermont a per capita contribution of 55 cents. There are 57 branches and a large number of circles.

\$20,000 FOR Y. M. C. A. WAR WORK.

This Amount Contributed Thus Far By Vermont.

Burlington, Aug. 21.—State Secretary Byron N. Clark of the Y. M. C. Mr. Clark added that probably eight more men from Vermont are being considered for war work at soldiers' camps.

Those selected are: Rev. A. H. Bradford of the Rutland Congregational church, who is in Arizona; Rev. Walter Thorpe of the Brandon Congregational church, who is on his way to Texas;

L. A. Morhous, who has been at Fort Ethan Allen and who goes with Mr. Clark to Charlotte; President Guy Potter Benton of the University of Vermont, who goes to France early next month and Rev. W. L. Boicourt of the Waterbury Congregational church, who will also go to France.
